

## **AUDATEX - GROUPAMA ANNOUNCEMENT**

We are pleased to announce that Groupama Insurance has permitted the use of Audatex estimates for its non-partnership repairers with immediate effect.

Estimates created using our AudaEnterprise system should be networked to Groupama centre-based engineers using the Groupama Terminal ID (***groupama***) in the network copy box.

AudaEnterprise enables quicker repairer/engineer communications, giving faster authorisation, improved vehicle throughput and enhanced customer service.

Further information is available from our Service Desk on 0118 9235666.
